## >> THE VISION

Il sogno della libertà su due ruote nasce nel 1952, quando Gaspare Lombardo realizza la sua prima bicicletta, e continua a crescere, come missione aziendale, nella Cicli Lombardo Spa, anno dopo anno. Sosteniamo un sogno che è soprattutto uno stile di vita ecologico, pratico e libero.

*The dream of freedom on two wheels was born in 1952 when Gaspare Lombardo made his first bicycle, and continues to grow as the company mission of the Cicli Lombardo Spa year after year. We support a dream that is especially an ecological, practical and free life style.*

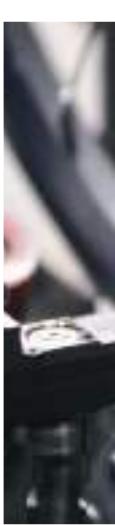

# OFFICINE WORKSHOP

È OBBLIGATORIO  
PROTEGGERE  
L'UDITO

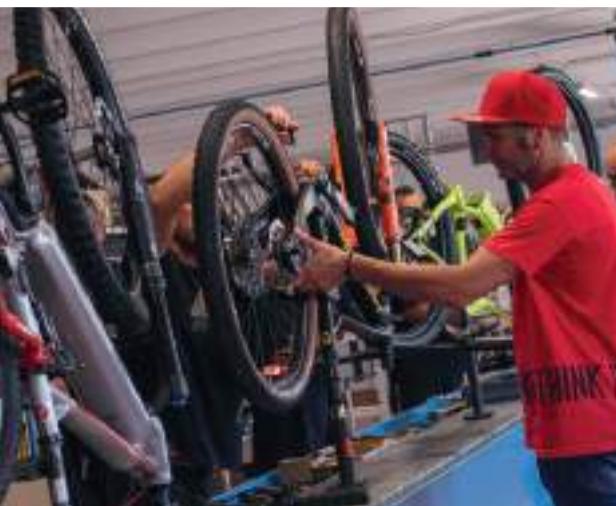

**lombardo®**

**>>** Ogni veicolo è dotato di un numero di matricola univoco che consente di individuarne ogni passaggio: dalla produzione, alla spedizione fino all'assistenza post-vendita.

*Each vehicle has a unique serial number that allows a complete tracking: from production to shipment and after-sales service.*

**>>** Efficientamento del processo produttivo e delle sue fasi.

*Efficiency of production process and its phases.*

**>>** Il nostro avanzato impianto di assemblaggio ruote permette la stabilizzazione dei raggi garantendo ai nostri modelli maggiore durata nel tempo e una migliore qualità.

*Our advanced wheels assembling system allows the spokes stabilization guaranteeing a longer duration and a better equalization for our models.*

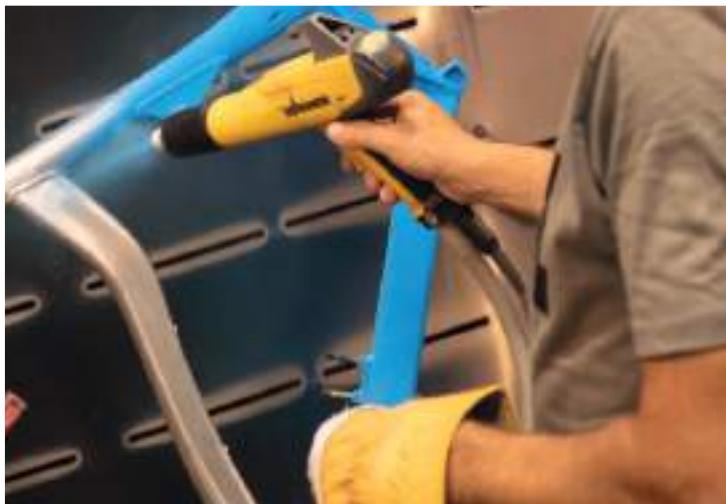

## >>OPEN LAB

L'innovazione tecnologica, il processo produttivo all'avanguardia e la cura dei dettagli a supporto di un prodotto eccellente e made in Italy. Il team Lombardo Innovation Lab, con costante attenzione verso il prodotto e i consumatori, cura la progettazione, il collaudo ed il controllo dei prodotti.

*The technological innovation, the advanced production process and the attention for every detail guaranteeing an excellent Made in Italy product. The Lombardo Innovation Lab team works the design, the test and the control of products compliance with constant attention towards the customers.*

**>>** L'intera produzione rispetta i requisiti qualità previsti dalla normativa europea, adottiamo, inoltre, sistemi di gestione ambientale internazionale ISO 14001 a tutela dell'ambiente.

*The whole production complies with the quality requirements established by the European law. Moreover, we adopt the international environmental management system ISO 14001 for the protection of the environment.*

**>>** Tutte le fasi di assemblaggio sono gestite all'interno dell'Azienda, fino al collaudo finale, garantendo la massima attenzione in ciascun passaggio.

*All the assembling phases are managed inside the company, till the final test, guaranteeing the maximum attention for each step.*

**>>** Sistema di verniciatura all'avanguardia con capacità produttiva di oltre 800 pezzi al giorno.  
*Innovative painting process with a production capacity of 800+ pieces every day.*

**Lombardo®**

>> Il nostro design contemporaneo e la ricerca tecnologica costante ci permettono di ottenere prestazioni di alto livello che rispondono a tutte le esigenze, dall'uso professionale a quello amatoriale.  
*Our contemporary design and constant technological research let us achieve an high-level performance that meets all your needs, from professional to amateurs use.*

## >>THE FAMILY

Siamo nonni di piccoli bikers. Intratteniamo i figli dei nostri collaboratori nella Lombardo Nursery, durante l'orario di lavoro, con video, animazioni, giochi educativi e muoviamo insieme le prime pedalate.

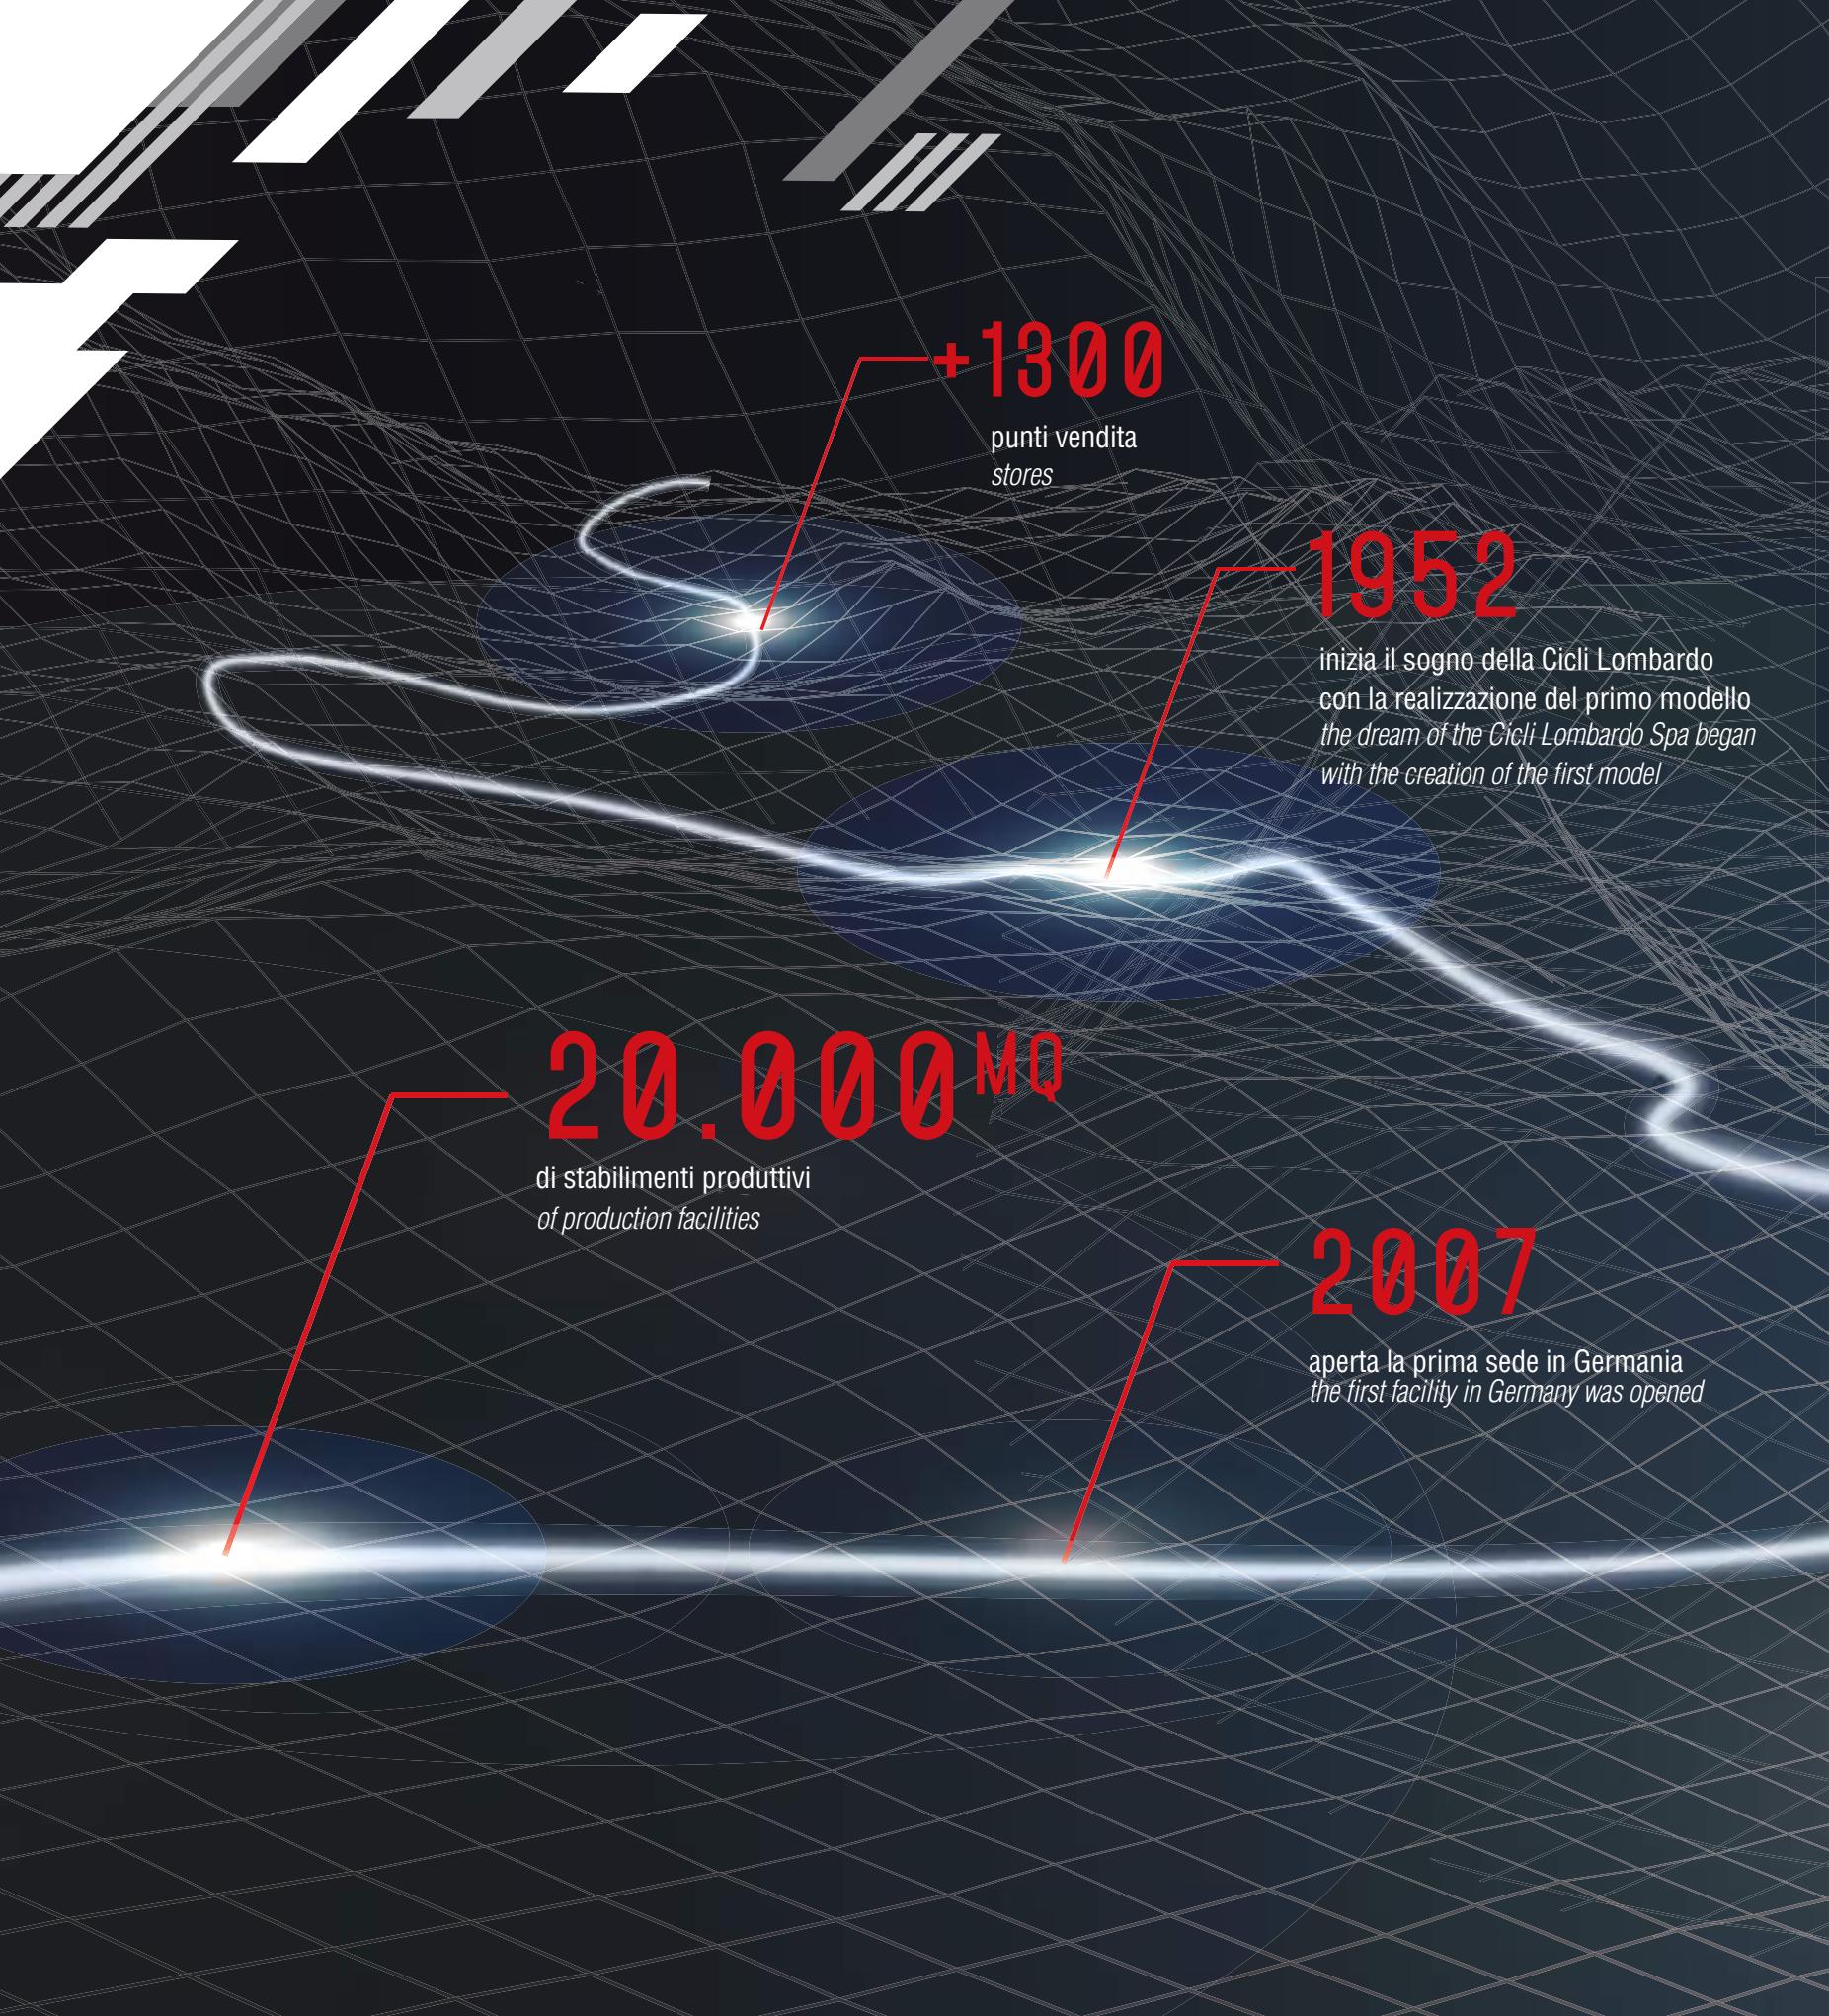

*We are the grandparents of little bikers. During the working hours, we enjoy with employee sons into the Lombardo Nursery with entertainments, educative games, videos and we make together the first pedaling.*

## >>THE BALANCE

Il rispetto per l'ambiente è il fulcro attraverso cui l'Azienda ruota, non solo come missione ma anche nella pratica: è alimentata, infatti, per la quasi totalità del suo fabbisogno energetico attraverso fonti rinnovabili. Tutto il processo produttivo è monitorato al fine di ridurre al minimo gli impatti ambientali e promuoviamo attivamente uno stile di vita sano, naturale e in armonia con il resto del pianeta.

*Respect for the environment is the fulcrum around which the Company revolves, not only as a mission but also in practice: it is powered, indeed, for almost its total energy requirement by renewable sources. All the production process is controlled to minimize the environmental impact and we actively promote a healthy, natural lifestyle in harmony with the rest of the planet*

BE RIDING

5.0

### **Mountain bike: Gravity, Freeride, Downhill**

Questa categoria si riferisce alle biciclette che comprendono l'uso previsto descritto nei livelli 1, 2, 3 e 4. Inoltre, queste biciclette sono ideali per qualsiasi tipo di salti con successivi atterraggi o pendii e velocità fino a 40 km / h. Possono anche essere utilizzate in terreni difficili e scoscesi. Andare in bicicletta in queste condizioni dipende in gran parte dall'esperienza e dalle capacità del ciclista.

*This category refers to bicycles encompassing the intended use described in levels 1, 2 and 3. In addition, this category is suitable for limited downhill use. Downhill rides are possible with a speed up to 40km/h as long as jumps do not exceed a height of 120cm. Riding a bicycle under these conditions depends heavily on the rider's experience and capabilities.*

4.0

### **Mountain bike: Trial, All Mountain, Enduro**

Questa categoria si riferisce alle biciclette che rientrano nella destinazione d'uso descritta nei livelli 1, 2 e 3. Inoltre, questa categoria è adatta per un uso limitato in discesa. Le discese sono possibili fino a una velocità di 40 km / h, purché i salti non superino l'altezza di 120 cm. Andare in bicicletta in queste condizioni dipende in gran parte dall'esperienza e dalle capacità del ciclista.

*This category refers to bicycles encompassing the intended use described in levels 1, 2 and 3. In addition, this category is suitable for limited downhill use. Downhill rides are possible with a speed up to 40km/h as long as jumps do not exceed a height of 120cm. Riding a bicycle under these conditions depends heavily on the rider's experience and capabilities.*

La scelta della misura è soggettiva e dipende dalle variabili anatomiche dell'utilizzatore.

*The bike size choice is personal and it depends from the anatomic variables of every customer.*

3.0

### **Mountain bike: Cross Country, Marathon**

Questa categoria si riferisce alle biciclette che rientrano nella destinazione d'uso descritta ai livelli 1 e 2. Inoltre, questa categoria è adatta a percorsi non tracciati e terreni più tecnici. Salti fino ad un'altezza di 60 cm sono inclusi in questo campo di utilizzo.

*This category refers to bicycles encompassing the intended use described in levels 1 and 2. In addition, this category is suitable for undeveloped terrain as well as technical applications. Jumps up to a height of 60 cm are included in this field of use.*

2.0

### **City, Trekking, Cyclocross, Mountain bike casual**

Questa categoria si riferisce a biciclette che possono essere utilizzate su strade non asfaltate e sentieri di ghiaia con percorsi ad inclinazione moderata oltre all'uso previsto dal livello 1. Il contatto con terreno irregolare non pone alcun problema. Le ruote potrebbero perdere il contatto con la strada. I salti non devono superare l'altezza di 15 cm.

*This category refers to bicycles that can be used on unpaved roads and gravel paths as well as trials with moderate inclines/slopes in addition to the intended use of level 1. Contact with uneven ground is not a problem. Tyres may lose contact with the road. Jumps must not exceed a height of 15cm.*

1.0

### **City, Road race, Time trial, Triathlon**

Questa categoria si riferisce a biciclette progettate per essere guidate su strade asfaltate o lisce. Le ruote possono involontariamente perdere il contatto con la strada.

*This category refers to bicycles that are designed to be ridden on paved or smooth roads. The tyres may unintentionally lose contact with the road.*

**KIDS**

### **Young bikes**

Destinate esclusivamente ai bambini, non devono essere utilizzate da giovani o adulti. I bambini dovrebbero essere sotto la supervisione di un adulto mentre vanno in bicicletta. Inoltre, i bambini dovrebbero sempre pedalare lontano dal traffico stradale e altri pericoli o ostacoli e in base alle loro capacità individuali.

*Intended exclusively for children, must not be used by young people or adults. Children should be under the supervision of an adult while riding the bike. Furthermore, children should always cycle well away from road traffic and other dangers or obstacles and in accordance with their individual skills.*

A high-contrast, red-tinted photograph of a cyclist in motion. The cyclist is leaning forward, pedaling, with one arm extended for balance. The background is a textured, reddish-brown surface, possibly dirt or gravel. Diagonal stripes in black, white, and grey are overlaid across the image, creating a sense of speed and competition.

## >> TRUNNION SHOCK TECHNOLOGY

Telaio full suspended con attacco Trunnion per ridurre la lunghezza totale della sospensione di circa 25mm e garantire alloggio ad ammortizzatori con le più ampie escursioni.

*Full suspension frame with Trunnion Shock Technology to give the suspension internals more room for the highest travel rear shock: the suspension length is reduced of 25mm.*

## >> BOOST!

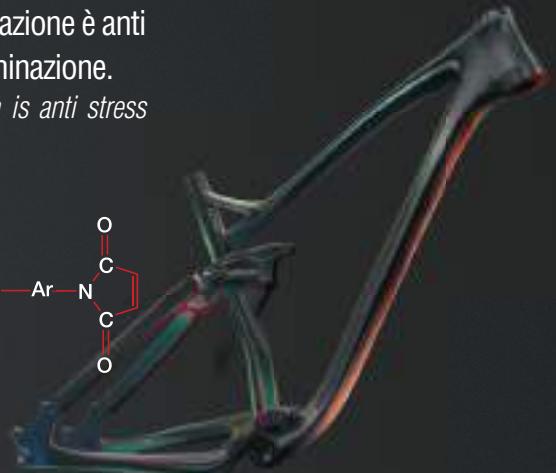

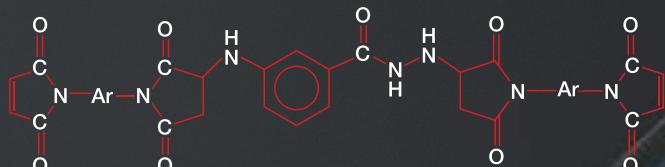

Il nuovo standard per i mozzi delle nostre ruote grazie all'allargamento della battuta permette una traslazione all'esterno del disco e dei pignoni aumentando la distanza fra le flange del mozzo. In questo modo i raggi della ruota sono più inclinati dando maggiore rigidità e robustezza alla ruota stessa, con evidenti vantaggi soprattutto sulle 29".

*The new standard of our wheels hubs allows to move the disc and the sprocket outwards thanks to a wider spacing and more distant flanges. In this way the wheel spokes are more inclined and give more rigidity and firmness to the wheel itself, with obvious advantages especially for 29".*

## >> CARBON HI-TECH

Telai caratterizzati da struttura anti piega e rinforzata continua. Il loro design di laminazione è anti concentrazione dello stress. Consente il controllo preciso della dimensione della laminazione.

*Frames characterized by anti-fold and continuous reinforced structure. Their laminating design is anti stress concentration. It allows a precise control of the lamination size.*

## >> GREAT POWER

Le nuove drive unit assicurano ai **riders Lombardo** un'esperienza eMTB unica: compatte, leggere e più potenti, materiali e sensori di alta qualità. Coppia fino a 85 Nm, nuove funzionalità nei comandi del motore e un ulteriore sviluppo della modalità eMTB: tutto questo sarà disponibile con un aggiornamento software. Per un'esperienza di guida entusiasmante: più naturale, intuitiva, potente, rappresenta un punto di riferimento assoluto della sua categoria.

*The new drive units offer a unique eMTB experience: Compact, lightweight and with more power, it combines high-quality materials and sensors. Torque up to 85 Nm, new features in the motor control and a further development of eMTB mode through a software update. For a thrilling riding experience: more natural, intuitive and powerful and an absolute benchmark in this class.*

85 Nm

### MAX TORQUE

Accelerazione potente anche con una struttura compatta  
Powerful acceleration despite compact size

340%

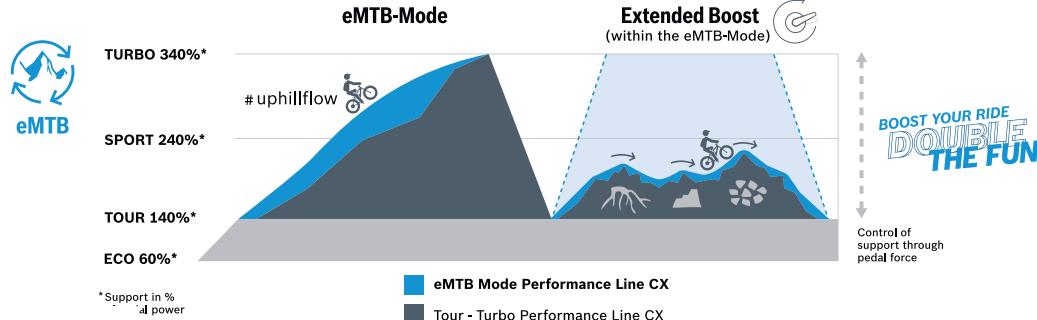

### MAX SUPPORT

Guida estremamente sportiva e sprint rapidi  
Extremely sporty riding style and fast sprints

25 km/h  
Cruise

### DRIVE UNIT

Supporto potente fino a 25 km/h anche durante le salite ripide  
Powerful support up to 25 km/h, even on steep mountain rides

## >> e-MTB MODE

Grazie alla modalità eMTB ulteriormente perfezionata, i **bikers Lombardo** sono ben attrezzati per tutte le situazioni di guida sul trail: in funzione della pressione esercitata sul pedale la varietà di supporto è molto più ampia, ancora più dinamica e naturale, il controllo della trazione ottimale in tutte le marce e gestione facilitata (“power on demand”), la partenza molto più precisa e sensibile, soprattutto con marce basse. Prestazioni straordinarie sul trail: l’Extended Boost è l’ineguagliabile funzione che permette di passare su radici, gradini e pietre in modo completamente fluido anche in salita. Grazie ad essa, l’eMTB risulta facile e agile da manovrare anche su trail tecnicamente impegnativi.

*Thanks to the advanced eMTB mode ensures the Lombardo bikers are well-prepared for whatever riding situation the trail may have in store: depending on pedal pressure progressive motor support adapts perfectly to the riding situation, the traction control is better in all gears and enables organic handling (AKA ‘power on demand’), much wider range of dynamic and natural support. Start-up behaviour is much finer and more sensitive - especially in low gears. Impressive performance on the trail: Extended Boost is the unrivalled function for negotiating exposed roots, steps and stones with ease, even uphill. The eMTB will respond with agility and ease to even the most technically demanding trails.*

## >>CONNECT YOUR HANDLEBAR

La SmartphoneHub trasforma la pedelec in un'eBike sempre collegata in rete che entra a pieno titolo nella vita digitale: grazie allo smartphone e all'app COBI.Bike, la SmartphoneHub diventa una centrale di comando intelligente che naviga, registra attività e può essere collegata con altri servizi e app. La **Lombardo Evolution powered by Bosch** può essere utilizzata anche senza smartphone, poiché il display integrato nell'hub per smartphone mostra i dati di marcia più importanti. In questo modo viene garantita la massima flessibilità agli eBiker, indipendentemente da quale sia la meta.

*The SmartphoneHub make the pedelec an always connected and more digital e-Bike: thanks to the COBI App, the SmartphoneHub becomes a smart central control that can browse, record the activities and can be linked to other services & app. The **Lombardo Evolution powerd by Bosch** can be used without the smartphone because the SmarthponeHub shows itself the most important trip info.*

## >> HELP CONNECT

Con le app COBI.Bike ed Help Connect, gli eBiker hanno accanto un attento compagno di viaggio digitale. Se viene rilevata una caduta, l'app attira l'attenzione di chi si trova nei dintorni con segnali acustici tramite lo smartphone. Help Connect, una nuova funzione premium dell'app COBI.Bike, fornisce un aiuto rapido: in caso di caduta, viene allertata una squadra di assistenza reperibile 24 ore su 24, la quale assiste l'eBiker e trasmette la sua posizione al centro di soccorso in caso di emergenza. Per una sensazione piacevole durante ogni tour.

*For a great feeling on every ride: The COBI.Bike App and Help Connect offer eBikers an alert, digital companion at their side that can be relied upon to provide fast assistance if it detects that the rider may have had an accident. Help Connect is a premium function of the COBI.Bike app and is available for eBikes with Smartpho-neHub and COBI.Bike.*

### NAVIGATOR

L'app COBI.Bike mostra la strada, con l'opzione di visualizzazione della mappa in 2D e 3D. Le indicazioni di navigazione vengono fornite anche vocalmente. L'eBiker può scegliere tra il percorso più veloce, più corto o più tranquillo.

*The COBI.Bike App shows the 2D or 3D map. There is also a vocal function to give the trip indication. The e-Biker can choose the speediest, the shortest or the quietest path.*

### PERSONAL TRAINER

L'App COBI trasforma lo smartphone in un personal trainer grazie alla possibilità di connettersi con altre App fitness e salute come Apple Health, Google Fit, Strava e Komoot.

*The COBI.Bike app turns the smartphone into a personal trainer by the connection to fitness and health services like Apple Health, Google Fit, Strava and komoot.*

**METEO WEATHER** Viaggiare spensierati nella natura: grazie all'app COBI.Bike, gli eBiker sono sempre informati sulle condizioni meteo in tempo reale.

*The e-Biker can know always the weather than-ks to the COBI.App Bike without worries for during the trip.*

# EVOLUTION

## >>SMART DISPLAY

Kiox è il ciclocomputer per il ciclista sportivo ambizioso. Oltre alle classiche funzioni di un ciclocomputer, Kiox consente di accedere al mondo digitale tramite l'**applicazione smartphone Ebike Connect**. Il display a colori trasmittente da 1,9" garantisce una leggibilità perfetta anche in caso di luce solare intensa. E poiché la retroilluminazione si adatta alle condizioni di luce, tutto è perfettamente leggibile anche al buio.

*Kiox is the perfect display for ambitious bikers. In addition to the classic functions, the Kiox can be connected to the digital world through the **Ebike Connect App**. Perfect legibility into the 1,9 inches display also under the sun and also into the dark thanks to the backlight.*

### >> SUPPORTO MAGNETICO

#### >> MAGNETIC SUPPORT

Si sistema velocemente ed è saldamente montato anche per i salti nel fuoristrada.  
*Solid mounting through the magnetic support also for off-road jumps.*

### >> VISUALIZZAZIONE PERSONALIZZATA

#### >> CUSTOMISED DISPLAY

Per un'esperienza di guida davvero personalizzata: le schermate e la selezione dei dati di marcia visualizzati possono essere facilmente configurati su Kiox e adattati alle proprie esigenze. In questo modo gli eBiker possono concentrarsi completamente su ciò che amano: guidare con l'eBike.

*For a totally personal riding experience: Screens and the choice of riding data to be displayed can be easily configured on Kiox and thus adapted to your own preferences. This enables eBikers to focus purely on the thing they enjoy: eBiking.*

### >> CONNETTIVITÀ

#### >> CONNECTIVITY

Il display sportivo è il collegamento con il mondo eBike connesso di Bosch. Tutti i dati di marcia rilevanti vengono registrati da Kiox e trasmessi all'eBike Connect App tramite una connessione Bluetooth. L'app registra i dati GPS e queste informazioni vengono unite ai dati di marcia creando così una panoramica e una valutazione di tutte le attività nell'app o nel portale online, dopo la corsa. Kiox può essere collegato a un cardiofrequenzimetro tramite BLE (Bluetooth Low Energy) per controllare la frequenza cardiaca e adattare l'allenamento in modo ottimale.

*All data trips are linked to the Connect App through the Kiox with bluetooth connection: after every trip the e-Biker can check them into the App or into the Online portal. Kiox can be connected to the heart rate monitor through Bluetooth to checking the heart beat and the quality of training.*

### >> SINCRONIZZAZIONE AUTOMATICA

#### >> AUTOMATIC SYNC

Tutte le informazioni sempre a portata di mano: i dati vengono sincronizzati automaticamente tra Kiox e l'app tramite Bluetooth. Anche gli aggiornamenti software possono essere caricati sul ciclo-computer in modo comodo e senza cavi.

*In addition to training and trips data, the update software can be simply launched by the Kiox without cables.*

## >>NYON

Nyon è la nuova esperienza di guida collegata allo smartphone tramite l'app eBike Connect che scambia dati su percorsi e attività. Il display a colori supporta i **bikers Lombardo** durante l'esplorazione di luoghi mai visitati prima, come guida intelligente, e fornisce anche dati di fitness, come un personal trainer. Il ciclocomputer all-in-one può essere utilizzato in modo intuitivo e semplice tramite il touchscreen, mentre durante la guida è controllato per mezzo dell'unità di comando separata.

*The Nyon is the new experience fully connected to the Smartphone through the e-Bike Connect App that exchange data about routes and activities. The colour display supports the pedelec rider as a smart guide when exploring previously unknown places and acts as a personal trainer by providing fitness data. The all-in-one on-board computer can be operated intuitively and easily via the touchscreen, and is controlled by means of the separate control unit while riding.*

## +INTUBE +AUTONOMY -CHARGING TIME

Per le esigenze più elevate in termini di potenza ed estetica, i Bosch PowerTube garantiscono un alto potenziale energetico durante ogni tour e, grazie alle dimensioni compatte e alla forma minimalista, si integrano perfettamente nel design delle **Lombardo Evolution powered by Bosch**.

*The Bosch Powertubes guarantee high energy, more autonomy and their design is perfectly integrated to e-bike **Lombardo Evolution powered by Bosch**.*

## >>FAST CHARGER

Ricarica l'energia della batteria della Lombardo Evolution powered by Bosch con il Fast Charger nel più breve tempo possibile (1h e 30min in meno). Dopo sole 3 ore i potenti PowerTube 500 e PowerPack 500 vengono completamente ricaricati. Per ricaricare una batteria al 50%, **il Fast Charger impiega poco più di 1 ora**. Per questa ragione è il dispositivo perfetto per ricaricare velocemente la batteria durante gli spostamenti. Il Fast Charger è ideale per le eBike che vengono molto utilizzate e spesso ricaricate.

*Charge the energy of Lombardo Evolution powered by Bosch with the Fast Charger in the shortest time (1h 30min less). The Powertube 500 and Powerpack 500 are fully charged after only 3 hours. The Fast Charger need a little bit more 1 hour by charging a battery to 50%. The Fast Charger is perfect for the e-bikes that are used a lot and often charged.*

## >>SAFE DRIVING

Pedalare sicuri è un fattore decisivo. La combinazione tra ABS attivo sulla ruota anteriore e il controllo del sollevamento della ruota posteriore garantisce una maggiore sicurezza. La velocità di entrambe le ruote viene monitorata dai sensori che calcolano il numero di giri delle ruote stesse. Se la ruota anteriore rischia di bloccarsi, in caso di frenate troppo brusche, l'ABS Bosch eBike migliora la stabilità e la manovrabilità dell'eBike, in particolare su fondi stradali scivolosi. Un vantaggio soprattutto per chi guida una **Lombardo Evolution Trekking/City** powered by Bosch

*Safety riding is a decisive factor for e-Bikers. Your safety is enhanced through the combination of front wheel ABS and rear wheel lift control. Wheel speed sensors monitor the speed of both wheels. If the front wheel threatens to lock when the rider brakes hard, the Bosch eBike ABS regulates the brake pressure and optimizes riding stability and control of the e-bike Lombardo Evolution powered by Bosch – especially in slippery road conditions.*

## >>ANTI-TUNING

Nel rispetto dell'attuale norma europea (EN 15194:2017) relativa alle biciclette con motore elettrico, durante la marcia il software dei sistemi Bosch eBike può rilevare, tramite dei sensori, se la pedelec è stata sottoposta a tuning e passare quindi alla modalità di emergenza. Questa soluzione aumenta la protezione della pedelec e del ciclista. Infatti, un utilizzo del sistema non conforme alle norme previste ne riduce, di solito, la durata e gli eBiker rischiano di danneggiare la drive unit e la bici stessa. Se un'eBike viene sottoposta a tuning, non viene più garantita la sicurezza: i componenti e la bici sono esposti a sollecitazioni impreviste e le conseguenze sono difficilmente prevedibili.

*With the anti-tuning solution Bosch complies with the requirement included in current European law (EN 15194: 2017) for electric motor-supported bicycles. This increases protection for both pedelecs and riders. Indeed, an improper use of the system usually reduces its service life and eBikers risk to damage the drive unit and the bike itself. The safety of a tuned eBike can no longer be guaranteed: components and the bike itself are exposed to unforeseen stresses and the consequences are difficult to predict.*

>> Profilo variabile delle tubazioni riduce le torsioni e garantisce sicurezza e precisione di guida, soprattutto in discesa.

*Variable tube profile reduces the twist and guarantees a safe and precise driving, especially downhill.*

>> 25 prese d'aria per un rapido raffreddamento del motore.  
25 air system for a fast temperature reduction of the drive unit.

>> Cover motore in alluminio assicura protezione da colpi accidentali.  
*Alloy Drive Unit cover guarantees the protection from the accidental hits.*

>> Telaio full suspended equipaggiato con ammortizzatore TRUNNION.  
*Full Suspension frame with TRUNNION rear shock.*

## >>EXPLODING SUSPENSION

Il nuovo telaio Sempione è un concentrato di tecnologia per le discese più estreme. Le sensazioni della gara, delle uscite in solitario o insieme agli amici non saranno più le stesse.

*The new Sempione frame is the most technologic one for your most extreme downhill. Your feelings of race, of solitary trip or with friends will not be the same.*

# EVOLUTION

powered by  
 FAZUA

# >>TOTAL CONTROL

**Il sistema di pedalata Fazua Evation supporta la nostra Mugello e la nostra Pergusa in modo compatto e leggero.** Per ottenere il miglior supporto possibile, la frequenza di pedalata deve essere compresa tra 65 e 85 giri / minuto. Grazie ad un sistema di misurazione della coppia su entrambi i lati: maggiore è la forza che si esercita sulla pedivella, maggiore è il supporto che si ottiene. Superando i 25 km/h, l'ingranaggio interno disaccoppia il motore dalla trasmissione e si possono raggiungere velocità superiori, senza dover pedalare contro il motore.

**The Fazua system supports the Mugello and the Pergusa in a compact and light way.** In order to get the best possible support from the engine, your pedaling frequency should be between 65 and 85 crank revolutions / minute. The drive system has a two-sided torque measurement: the more power you bring to the crank, the more support you get back. With more than 25 km/h, the freewheel decouples the engine from the transmission and you can reach peak speeds on your own, without having to pedal against the engine.

# >>JUST A 'CLICK'

Con un solo clic si può estrarre l'unità motore dalla **e-Mugello Road** e sostituirla con l'apposita cover per il tubo obliquo: in questo modo è possibile utilizzare la bici come una normale bicicletta senza motore.

*It's possible to pull out the drive unit from the **e-Mugello road** with one click and you can replace it with a cover: so it is possible to use the e-bike like a traditional bike.*

# EVOLUTION

powered by  
 FAZUA

## >> RIDING MODES

Scegli il supporto di uno dei 3 livelli d'assistenza o pedala senza aiuto proprio come faresti su una bicicletta a trazione muscolare.  
*Choose from three levels of assistance or pedal without any help, just as you would on a non-motorized bike*

### **Breeze**

Supporto morbido, di bassa intesità, e costante fino a **100 watt** di potenza erogata  
*Gentle, constant and 100 watts strong tailwind even at low rider power.*

### **River**

Supporto progressivo e sportivo per un'esperienza di guida fluida fino a **210 watt** di potenza erogata  
*Progressive and very sporty mode, for a smooth riding experience! The strength of the support precisely follows your foot and your own power. Give a lot - and get a lot from the motor (max. 210 watts)*

### **Rocket**

Supporto aggressivo (**fino a 250watt** di potenza erogata) per affrontare le pendenze più ripide con un ridotto sforzo muscolare  
*Aggressive assistance that helps you to tackle the steepest sections even with moderate driver power (max. 250 watts)*

# >>RIDER APP

L'App che si adatta alle esigenze dei bikers che potranno accedere all'intera gamma di dati generati dai sensori e dal sistema, nonché creare e personalizzare facilmente i propri cruscotti. Sulla base di questo concetto, l'app fornisce una trasparenza completa su tutte le informazioni rilevanti. Combinando questo con il tracciamento GPS ad alta precisione, i ciclisti hanno la capacità di analizzare accuratamente le proprie prestazioni di viaggio, tenere traccia dei propri progressi di allenamento e imparare di più sulle proprie biciclette.

## **L'app include le seguenti funzionalità:**

- Navigazione GPS, monitoraggio e informazioni di viaggio
- Potenza del motore, capacità residua della batteria, distanza da scaricare, ecc.
- Tachimetro, cadenza, potenza del ciclista, coppia del ciclista, ecc.
- Panoramica tecnica e informazioni sulla carica della batteria
- Funzioni di supporto, incl. accesso diretto al servizio FAZUA
- Possibilità di condividere le giostre con gli amici
- Sintesi e analisi dei dati post-corsa

*Riders can now access the full range of sensor- and system-generated data, as well as easily build and customize their own dashboards. Based on this concept, the app provides complete transparency over all relevant information. By combining this with high-precision GPS tracking, riders have the ability to accurately analyze their own trip-performance, keep track of their training progress and learn more about their bikes.*

## **The app includes the following features:**

- GPS navigation, tracking and trip information
- Motor power, remaining battery capacity, distance to empty, etc.
- Speedometer, cadence, rider power, rider torque, etc.
- Technical overview and battery charge information
- Support functions, incl. direct access to FAZUA Service
- Ability to share rides with friends
- Summaries and analysis of the data post-ride

SHIMANO

SIGNUM

A woman with blonde hair tied back is smiling broadly while riding a white bicycle. She is wearing a light-colored, short-sleeved top. The bicycle has a basket on the front with the words "Patin Bibi" and "Mampos 2" written on it. The background is a lush, green field of tall grass. The image is overlaid with several thick, diagonal stripes in white, grey, and black.

# GARANZIA LOMBARDO WARRANTY LOMBARDO

**Cicli Lombardo SpA** garantisce tutti i propri prodotti per 2 anni dalla data d'acquisto presso uno dei rivenditori Lombardo autorizzati. È possibile estendere la garanzia di un ulteriore anno registrando il proprio prodotto sul sito [www.lombardobikes.com](http://www.lombardobikes.com). Dall'estensione sono esclusi tutti i componenti elettronici sui quali vale la garanzia legale della casa produttrice.

Il produttore è esonerato da ogni responsabilità ed obbligo per qualsiasi incidente a persone o cose che possa verificarsi per o durante l'uso del veicolo.

Cicli Lombardo SpA può rispondere della sostituzione e/o riparazione gratuita di componenti inutilizzabili o inefficienti (o dell'intero prodotto) previa richiesta presentata dal rivenditore presso cui è stata acquistata la bike e ove risulti oggettiva una non conformità imputabile a difettosità di materiale o di lavorazione. Ogni richiesta al rivenditore deve essere corredata dalla presentazione di scontrino fiscale pena l'impossibilità di reclamare la garanzia.

L'esercizio e il riconoscimento della garanzia su un componente, o sull'intero prodotto, non ne rinnova il periodo di copertura: il termine di scadenza rimane quello residuale dalla data d'acquisto indicata sullo scontrino fiscale.

Per alcune categorie di componenti (a titolo d'esempio non esaustivo: forcelle ROCK SHOX, deragliatori SRAM ...), Cicli Lombardo SpA può riservarsi la facoltà di far riconoscere la garanzia reclamata presso gli appositi centri autorizzati dal produttore.

I seguenti particolari, essendo soggetti ad usura, non sono coperti da garanzia: pattini freno, cavi, guaine, lampadine, manopole, copertura sella, pedali, catene, ruote libere, decalcomanie, camere d'aria, valvole e coperture. Fanno eccezione i fenomeni chiaramente imputabili a difetti di costruzione e/o materiale.

Comportano la decaduta del diritto di garanzia: l'acquisto di prodotti usati, la negoziazione e la permuta tra privati, l'acquisto di prodotti presso centri non autorizzati; il naturale deterioramento della capacità di assorbimento della batteria (nel caso di e-bike), l'utilizzo di componenti esterne (es. centraline, acceleratori per e-bikes ...); l'apporto di modifiche strutturali al prodotto e l'alterazione del funzionamento e dell'estetica del veicolo; le riparazioni, le sostituzioni o gli smontaggi fai da te non monitorati dal rivenditore o autorizzati da Cicli Lombardo SpA; l'impiego del prodotto fuori dalle normali condizioni d'uso; la negligenza dell'utilizzatore nella conservazione e manutenzione periodica del prodotto.

Il veicolo non risulta coperto da garanzia nei seguenti casi: danni derivati da sinistri o dovuti ad incuria; manutenzione conseguente ad usura, fatta eccezione per fenomeni chiaramente imputabili a difetti di materiale e/o lavorazione; tutti i casi di rumorosità, vibrazioni e deterioramenti che non influenzano la funzionalità e la guidabilità del prodotto.

The **Cicli Lombardo S.p.A** offers a 2 years warranty for all its products since the date of purchase at one of the Lombardo authorized retailers. It's possible to extend the warranty for another year if the product is registered on the website: [www.lombardobikes.com](http://www.lombardobikes.com). All the electric components are not included in this extension but they are under the legal warranty of the manufacturer.

The manufacturer is exonerated from any responsibility or obligation in case of accidents to persons or damages to objects that may occur during the use of the vehicle.

The **Cicli Lombardo S.p.A** can replace and/or repair for free, the unusable and inefficient components (or the entire product), upon a written request of the dealer where the bike has been purchased. Each request to the retailer must be accompanied by the presentation of the receipt or the warranty claim will be invalid.

The acceptance of the guarantee of a component, or on the entire product, doesn't renew the coverage period: the deadline remains unchanged from the date of purchase indicated on the receipt.

Concerning some categories of components (no-exhaustive example: ROCK SHOX forks, SRAM derailleurs...), **Cicli Lombardo S.p.A.** may reserve the right to recognize the claimed warranty in specialized centers by the manufacturer.

The following components are not covered by warranty because subjected to wear : brakes paddles, cables, cases, lights, grips, pedals, chains, freewheels, stickers, tires, tubes, valves. An exception to this could be all those cases that are clearly attributable to manufacturing and/or material defects.

The warranty will be void under the following cases: the purchase of used products, negotiation and exchange between private parties, the purchase of products from unauthorized centers; the natural deterioration of the battery capacity (in case of e-bike), the use of external components (eg. control units, accelerators for e-bikes); structural changes and function and aesthetic modifications; fixing up, replacements or disassembling without the supervision of a Lombardo retailer or the authorization by Cicli Lombardo S.p.A.; the use of the product beyond normal conditions; user's carelessness in storing and ordinary maintenance of the product.

The vehicle is not covered by warranty in the following cases: damages resulting from accidents or negligence; maintenance because of wear, except those cases clearly due to manufacturing and/or assembling defects; all noisy, tremblings and deterioration cases that do not influence the product functionality and riding.
