molto
di più che **Una**
storia
italiana

Lombardo[®]
bicycles since 1952

G. LOMBARDO

much
more
than

An Italian story.

Tutto ciò che unisce non può che essere positivo. Sarà per questo che ci attrae l'idea di **diagonale**, quel segmento capace di unire due vertici non consecutivi.

E non è solo **questione di geometrie**, **diagonale** è una regola di composizione nel disegno, nella pittura, nella fotografia.

Ci emoziona il concetto di **diagonale**, di andare obliquo, di procedere di **traverso**. Settant'anni di storia ci hanno insegnato di come non esistono ascensori per il successo. Bisogna prendere le scale. Anche la salita più dura si affronta **una pedalata dopo l'altra**.

Siamo sempre stati disposti al duro lavoro, a partire dalle **basi** e faticare per essere sempre all'**altezza**, per raggiungere gli obiettivi di traverso, in **diagonale**.

Ed è lungo queste **linee** che stiamo scrivendo il nostro **futuro**.

Everything that unites us can't be anything but something positive. This may be the reason why the concept of **diagonal**, the segment that connects two opposite corners, fascinates us.

It's not just a **matter of geometric** shapes, the **diagonal** is a rule of composition in drawing, painting, photography.

The concept of diagonal, of **going obliquely**, moves us. **Seventy years** of history taught us that there are no elevators to success. You need to take the stairs. Even the most challenging uphill must be faced **one pedal after the other**.

We have always been willing to work hard, to start from the **base** and rise to the **challenge**, to reach our goals diagonally.

And it's along those **lines** that we are writing our **future**.

Partire da una necessità,
per arrivare alla bellezza.

Begin with a need,
to achieve the beauty.

“Non dire mai
che non si
può fare”...

Cav. Gaspare Lombardo - Founder Knight of the Order of Merit
of the Italian Republic

“Never say that
you can't do
something”...

the vision OF A PIONEER

vedere oltre SEEING BEYOND

Sicilia dei primi anni '50. Una terra gravemente sacrificata dagli eventi bellici, **protagonista** di un contraddittorio **cambiamento**, in cui progresso e povertà si mischiano continuamente. Un lembo di terra, **Busetto Palizzolo**, che non può che - a stento - basare sull'agricoltura e l'allevamento la proprio realtà economica e sociale.

Eppure è in questo scenario - a dir poco impegnativo - che un **ragazzino**, figlio del fabbro del paese vede e sogna "**al di là della montagna**", avviando quella che oggi è diventata un'azienda, un'industria italiana riconosciuta e affermata a livello globale.

Gaspare Lombardo costruisce la sua prima bicicletta con sfondi di produzione della bottega del padre e riutilizzando materiali bellici abbandonati.

Perchè è già nel **1952** che contro tutto e tutti vede già la bicicletta come **IL mezzo di trasporto ecosostenibile del futuro**.

In the early 50s **Sicily** was a land seriously damaged by the war events, the **protagonist** of a contradictory **change**, where progress and poverty mixed continuously. **Busetto Palizzolo** was a strip of land that based - with difficulty - its economic and social reality on agriculture and breeding.

But in this challenging scenario a boy, the son of the local blacksmith, sees and dreams "**beyond the mountain**", starting up what has now become a factory, an **Italian company** recognized and well-known worldwide.

Gaspare Lombardo built his first bicycle using the production scraps of his father's workshop and reusing abandoned war materials.

In **1952**, against everything and everybody, he already saw the bicycle as **THE eco-sustainable vehicle of the future**.

“Qualcuno l’ha definita

BORN IN
SICILY
RIDING
EVERYWHERE

la fabbrica
F A C T O R Y

Oltre **20.000 mq.** di stabilimenti produttivi eco-sostenibili, distribuiti su due sedi a Buseto Palizzolo (TP), paese rurale di 3.000 abitanti, incastonato tra le rinomate località balneari di San Vito Lo Capo e Castellammare del Golfo e circoscritto da cave di marmo e parchi edici.

Facciamo nascere le nostre bici su un'isola e le facciamo arrivare ovunque. Ma è riduttivo chiamarla isola: ricca di montagne, coste rocciose, acque cristalline e faraglioni, fondata dal mito... La Sicilia, per la varietà dei suoi ecosistemi, è un micro-continente!

Nasliamo qui, questa è la nostra terra a cui dobbiamo il sapere e la passione che ci guida in ogni scelta. È qui che vengono progettate e costruite, fra gli scenari più vari, le bici Lombardo.

More than 20,000 square meters of eco-sustainable production plants, distributed over two locations in Buseto Palizzolo (TP), a rural town of 3,000 inhabitants, nestled between the well-known seaside resorts of San Vito Lo Capo and Castellammare del Golfo and surrounded by marble quarries and wind farms.

We make our bikes on an island to reach everywhere. But it is an underestimating to call it an island: rich of mountains, rocky coasts, crystalline water and sea stacks, founded by myth... Sicily, due to the variety of its ecosystems, is a micro-continent!

We were born here, this is our land to which we owe the knowledge and passion that guides us in every choice. It is here that Lombardo bikes are designed and built in the most varied scenarios.

le linee di verniciatura

P A I N T I N G

Verniciare una bici significa **refinirla, migliorarla e proteggerla**. Per questo motivo investiamo da sempre in questa fase produttiva interna.

Utilizziamo principalmente **vernici a polvere**, con processi che non richiedono l'utilizzo di solventi potenzialmente dannosi per l'ambiente; **processi** sia manuali che automatici, per **grandi lotti** in serie o per **limited edition** e prototipi, che possano portare ad una continua evoluzione verso nuovi sbocchi.

Le cabine di pretrattamento e verniciatura, i forni di asciugatura e di polimerizzazione, i relativi trasportatori, sono implementati con lo scopo di migliorare la **qualità e la sicurezza** dell'ambiente di lavoro, consentendo un elevato risparmio energetico ed una **eccellente qualità** del prodotto finito.

Painting a bike means **finishing it, improving it and protecting it**. For this reason, we have always invested in this internal production phase.

We mainly use **powder paints**, with processes that do not require the use of solvents potentially harmful for the environment. **Both manual and automatic** processes, for large batches in series or for **limited editions** and **prototypes**, lead to a continuous evolution towards new results.

The pre-treatment and painting booths, the drying and polymerization ovens, the relative conveyors, are implemented to improve the **quality and safety** of the working environment, allowing high energy savings and **excellent** finished products.

il reparto produzione ruote

W H E E L S

L'imbastitura della ruota, intreccio e montaggio dei **raggi** sul **cerchio**, sono operazioni effettuate con cura in maniera manuale, coadiuvate dall'ausilio di **s sofisticati macchinari**.

Effettuato l'assemblaggio, per MTB, strada, gravel o e-bike che siano, la ruota viene montata su una linea automatizzata per eseguire la **tensionatura** dei raggi secondo standard e tolleranze stabilite, misurate con **specifici software**.

La **posa degli adesivi**, così come l'installazione di camera d'aria e copertone - e ove previsto, kit tubeless - viene effettuata **manualmente** da un operatore.

The basting of the wheel, weaving and assembly of the **spokes** on the **rim**, are operations carried out with care by hand, assisted by the aid of sophisticated machinery.

Once the assembly has been carried out, whether for MTB, road, gravel or e-bike, the wheel is mounted on an automated line to perform the **tensioning** of the **spokes** according to established standards and tolerances, measured with **specific software**.

The **application of the adhesives**, as well as the installation of the inner tube and clincher - and where applicable, the tubeless kit - is carried out manually by an operator.

STYLE DEPARTMENT

La **casa creativa** di Lombardo Bikes, volano dell'Azienda. Nasce come "quartier generale" degli **uffici marketing** e di **comunicazione** per poi svilupparsi con respiro più ampio rispetto al convenzionale. Si tratta di **spazi inclusivi** che vogliono dare modo, ai nostri talenti, di **potersi esprimere al meglio** personalmente e professionalmente.

The **creative home** of Lombardo Bikes, the driving force of the Company. It was born as the "headquarters" of the **marketing** and **communication** offices and then developed with a wider scope than the conventional one. These are inclusive spaces that want to give **our talents** the opportunity to best express **themselves** personally and professionally.

AREA 52

AREA 52

Come nasce una Lombardo? Nasce con visione, passione, **immaginazione e originalità** che da sempre contraddistinguono i nostri canoni per la **progettazione** ciclistica. In **Area52** andiamo oltre, diamo **forma** al futuro che ancora non c'è!

How was a Lombardo Bike born? Surely with vision, passion, **imagination** and **originality** that have always distinguished our standards for cycling design. In Area 52 we go further, **we shape the future** that does not exist yet!

design

RESEARCH and development

LAB 52

Ci piace sporcarci le mani perché amiamo la **meccanica** e l'estetica. L'officina del **Lab52** è specializzata nel montaggio, nelle sperimentazioni, nel tuning su **prototipi** o esemplari **One-Off**, veri specchi delle personalità dei nostri tester/riders.

We like to get our hands dirty because we love **engineering** and **aesthetics**. The Lab 52 workshop is specialized in assembly, experimentation, tuning prototypes or **One-Off** samples, that are mirrors of the personalities of our testers / riders.

officina

WORKS and prototyping

A CA DE MY 52

È un luogo fisico e virtuale, una **scuola** d'impresa, dove si mettono in condivisione **saperi**, **valori**, comportamenti e strategie per la crescita dei manager, dei **giovani talenti**, dei collaboratori interni.

It is a physical and virtual place, a business **school**, where **knowledge**, **values**, behaviours and strategies are shared for the growth of managers, **young talents** and internal collaborators.

scuola

EDUCATION and training

capitale umano

WE ARE FAMILY

una famiglia come azienda

A FAMILY AS A COMPANY

Lombardo Bikes è stata la prima azienda italiana del settore ad istituire un **nido aziendale**, rispondendo alle esigenze familiari dei propri collaboratori e dimostrando una particolare attenzione alla **comunità locale**. Intratteniamo ed formiamo - durante l'orario di lavoro - i figli dei nostri collaboratori nella Lombardo Baby School, con **video**, **animazioni**, **giochi** educativi. E, in primis, muoviamo insieme le **prime pedalate!**

Lombardo Bikes was one the first companies in this industry to have a **company nursery**, responding to the family needs of its collaborators and showing particular attention to the local community. We **entertain and train** during the working hours - the children of our collaborators in the Lombardo Baby School with videos, animations, educational games. And, in primis, we make together their **first ride!**

baby school

and PLAY GROUND

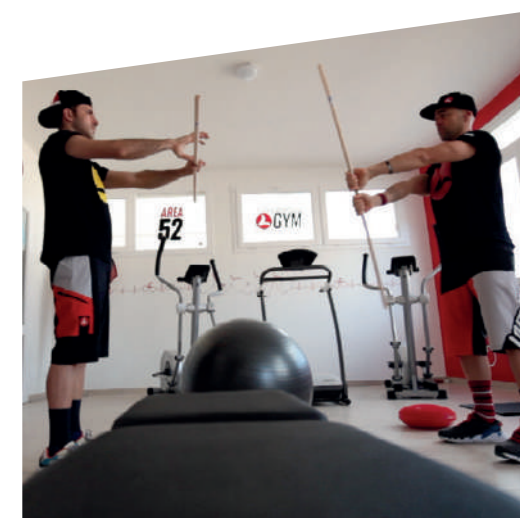

Lombardo Bikes è attenta al **benessere psicofisico** delle proprie risorse umane. Gli stabilimenti sono dotati di una **palestra**, dove ogni figura può seguire un programma di **allenamento personalizzato**. La sede è attrezzata per fornire **ogni tipo di comfort** e i dipendenti ne sono soddisfatti. Incoraggiamo - con l'esercizio fisico - un'alimentazione sana, consapevole.

Lombardo Bikes takes care of the **psychophysical well-being** of its human resources. The establishments are equipped with a **gym**, where everybody can follow a personalized training program. The office is equipped to provide every type of comfort and the employees are **satisfied** with it. We encourage - with physical exercise - a **healthy, conscious diet**.

wellness

and GYM FLOOR

L' Azienda è impegnata nel promuovere l'**integrazione** e migliorare la **comunicazione**. Sono proposte attività che mirano a far diventare un gruppo di persone un **team fortemente coeso**; possono essere di tipo formativo, educativo, d'intrattenimento o **momenti esperienziali**. Allo stesso tempo, Lombardo Bikes incoraggia e investe sul **miglioramento personale** dei singoli individui.

The Company is committed to promoting **integration** and improving communication. many activities aim to make a group of people become a **strongly cohesive team**. these activities can be training, educational, entertainment or experiential moments. At the same time, Lombardo Bikes encourages the **personal improvement** of each individual and invests in it.

team building

EXPERIENCE

impatto sociale d'impresa CORPORATE SOCIAL RESPONSIBILITY

L' Azienda si assume una **responsabilità sociale** ad ampio raggio, per contribuire a formare i cittadini di domani. Lombardo Bikes intende **supportare** le proprie risorse umane, risolvendo problematiche, facilitando relazioni, mettendo il lavoratore in condizione di **dare il meglio** all'Azienda che lo tratta come una **risorsa da gratificare**, da valorizzare e premiare.

The Company assumes a wide-ranging **social responsibility**, to help training the citizens of tomorrow. Lombardo Bikes intends to support its **human resources**, solve problems, facilitate relationships, putting the workers in a position to **give the best** to the Company that treats them as a **resource** to be gratified, valued and rewarded.

welfare
safety minded

Lombardo Bikes devolve **contributi** a **cause benefiche**, in tempo o in risorse economiche. Sono proposte iniziative autonome o di **sostegno** alle realtà attive sul **territorio** nazionale. Vengono sostenute **attività sportive** e ludico culturali.

Lombardo Bikes donates contributions to **charitable causes** in time or in economic resources. We promote independent **initiatives** or support other initiatives on the national territory. Sports and cultural activities are supported.

comunità
volunteering

Lombardo Bikes è un'Azienda che custodisce e protegge **la memoria del luogo** in cui è nata; l'Azienda intende essere esempio virtuoso di come si possa **coniugare** produzione, solidarietà e sostenibilità, per generare un **impatto sociale** sul territorio. Lombardo Bikes crede fortemente e sta investendo, già da alcuni anni, in una campagna di **"rientro dei cervelli siciliani"**.

Lombardo Bikes is a company that preserves and protects the **memory of the place** where it was born; the Company intends to be a virtuous example of how production, solidarity and sustainability can be combined to generate a **social impact** on the territory. Lombardo Bikes strongly believes and is investing, for some years already, in a **"return of Sicilian brains"** campaign.

territorio
promoting our land

La sostenibilità
come modo
di vivere e agire.

Sustainability
as a way to live
and act.

let's green
THE PLANET

l'impegno per l'ambiente
NATURE IS OUR BEST FRIEND

L'Azienda crede fermamente che il primo passo per raggiungere l'obiettivo di **vivere in un modo più sostenibile**, sia la sensibilizzazione e la comunicazione. Lombardo Bikes ha da decenni adottato un **mindset sostenibile** con azioni, processi ed **obiettivi green**. La sostenibilità per Lombardo Bikes non è solo un obiettivo, ma **parte integrante** del modo di agire.

The Company firmly believes that the first step to achieve the goal of **living in a more sustainable** way is generating awareness and promoting communication. Lombardo Bikes has adopted a **sustainable mindset** for decades with green actions, processes and objectives. Sustainability for Lombardo Bikes is not just a goal, but an integral part of the way we act.

sensibilizziamo
make a change

L'Azienda **differeenzia e smaltisce** in modo corretto scarti e rifiuti. **Sensibilizza** ogni collaboratore a ragionare in termini sostenibili, per rendere ogni processo **più green** ed efficiente, riducendo il consumo di risorse e **valorizzando** gli scarti. L'Azienda **riusa**, ove possibile i materiali, prediligendo imballaggi **sostenibili** e riciclati e invitando gli stakeholders a fare altrettanto.

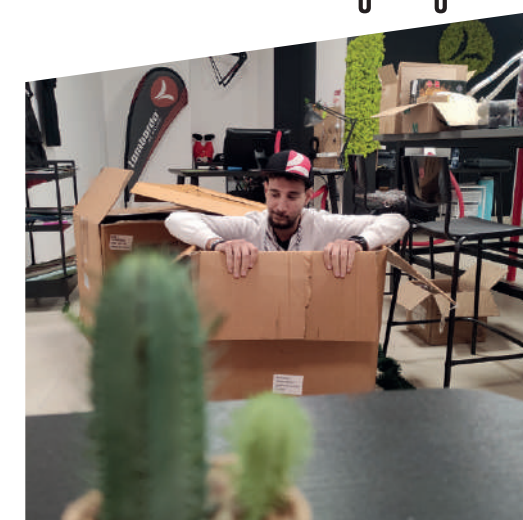

The Company separates and disposes of scraps and waste correctly. We sensitize every collaborator to think in **sustainable** terms, to make every process **greener** and more efficient, reducing the consumption of resources and **reducing** waste. The Company reuses materials when it is possible, promoting the **sustainable** and recycled packaging and inviting stakeholders to do the same.

differeenziamo
recycling

Investiamo in **innovazione tecnologica**, partnership strategiche e **impiantistica** all'avanguardia. Il piano industriale 2020-2025 è focalizzato in gran parte al rafforzamento della produzione energetica da **fonti green**, in particolare di **energia solare** derivante dal **fotovoltaico**; già dal 2023 il 100% dell'energia utilizzata deriva da quest'ultima.

We invest in technological **innovation**, strategic partnerships and cutting-edge systems. The 2020-2025 business plan is largely focused on strengthening energy production **from green sources**, in particular solar energy deriving from **photovoltaics**; from this source, since 2023, we take the 100% of the energy needed.

Da oltre 70 anni,
scriviamo una storia
che parla di futuro.

Over 70 years,
writing a story
that talks
about the future.

È il 1952 quando **Gaspere Lombardo**
costruisce la sua prima bicicletta con sfridi di
produzione della bottega del padre e riutilizzando
materiali bellici abbandonati.

Gaspere Lombardo, in the 1952, builds
his first bicycle with production scraps from his
father's workshop and reusing war materials.

dalla necessità
ALLA BELLEZZA

52

AGEVOLE

Le varianti di **bici** caratterizzate dal fatto di
avere uno **sloping molto pronunciato**
in grado di **risolvere le difficoltà** di sellare
la bici, sono adesso identificate come "**Agevo-
le**", senza nessuna precisazione di genere. È
prevista quindi un'**entrata facilitata**,
indifferentemente se in sella vada una ragazza/
donna o una persona matura.

The bike variants characterized by having a very
sloped top tube to solve the riding
difficulty are now identified as "**Agevole**"
without any gender differences.

AGROBIO

mtb
Gravity,
Freeride,
Downhill

Comprendono l'uso previsto descritto nei livelli 1, 2, 3 e 4. Per terreni difficili e scoscesi. Ideali per qualsiasi tipo di salti con successivi atterraggi o pendii e velocità fino a 40 km/h. Andare in bicicletta in queste condizioni dipende in gran parte dall'esperienza e dalle capacità del ciclista.

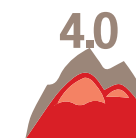

Includes the kind of usage use of levels 1, 2, 3, 4. Ideal for rough and difficult terrains and particularly suited for any kind of jumps with subsequent landings and speeds up to 40 km/h. Riding in these conditions depends heavily on the rider's experience and skills.

City,
Trekking, Gravel,
Mountain
Bike Casual

Per strade non asfaltate e sentieri di ghiaia con percorsi ad inclinazione moderata, oltre all'uso previsto dal livello 1. Il contatto con terreno irregolare non pone alcun problema. Le ruote potrebbero perdere il contatto con la strada. I salti non devono superare l'altezza di 15 cm.

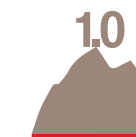

This category refers to bicycles that can be used on unpaved roads and gravel paths as well as trials with moderate inclines/slopes in addition to the intended use of level 1. Contact with uneven ground is not a problem. Tyres may lose contact with the road. Jumps must not exceed a height of 15 cm.

mtb
Trial,
All Mountain,
Enduro

Rientrano nella destinazione d'uso descritta nei livelli 1, 2 e 3. Adatte per un uso limitato in discesa, fino a una velocità di 40 km/h, purché i salti non superino l'altezza di 120 cm. Andare in bicicletta in queste condizioni dipende in gran parte dall'esperienza e dalle capacità del ciclista.

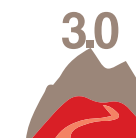

Includes the kind of usage use of levels 1, 2, 3. Ideal for limited downhill usage and speeds up to 40 km/h, as long as jumps don't exceed a highest of 120 cm. Riding in these conditions depends heavily on the rider's experience and skills.

City,
Road Race,
Time Trial,
Triathlon

Per strade asfaltate o lisce. Le ruote potrebbero perdere il contatto con la strada.

Ideal for paved and smooth road. The wheels may lose contact with the road.

mtb
Cross
Country,
Marathon

Rientrano nella destinazione d'uso descritta ai livelli 1 e 2. Adatte a percorsi non tracciati e terreni più tecnici. Salti fino ad un'altezza di 60 cm sono inclusi in questo campo di utilizzo.

Includes the kind of usage use of levels 1, 2. Ideal for undeveloped and technical terrain and jumps up to a height of 60 cm.

Kids
Bikes

Destinate ai bambini, sotto la supervisione di un adulto; non devono essere utilizzate da giovani o adulti. I bambini dovrebbero sempre pedalare lontano dal traffico stradale e da altri pericoli o ostacoli e in base alle loro capacità individuali.

Intended exclusively for children, under the supervision of an adult. They must not be used by young adults or adults. Kids should always ride far from traffic and from other dangers or obstacles and in accordance to their skills.

The smart system

perfect TEAM

Divertimento illimitato: le drive unit, i display e le batterie di Bosch eBike Systems conquistano i ciclisti per l'elevata **qualità** tecnica e formano un **team perfetto**. I singoli componenti creano insieme un sistema perfettamente armonizzato che garantisce un livello elevato di efficienza, **sicurezza** e comfort. Per divertimento e flow eccezionali sempre e ovunque.

Unlimited Fun: Bosch eBike Systems' drive units, displays, and batteries captivate cyclists with their high technical **quality** and form a **perfect team**. The individual components together create a perfectly harmonized system that guarantees a high level of efficiency, **safety**, and comfort. For exceptional fun and flow, anytime and anywhere.

BOSCH

ePowered

The Smart System

Il sistema intelligente ti porta nel futuro digitale dell'eBike. L'app eBike Flow, la batteria, il display, l'unità di comando e la drive unit sono completamente connessi in rete nel sistema intelligente. Attraverso aggiornamenti over-the-air periodici, vengono continuamente aggiornati e migliorati con nuove funzioni. È possibile controllare tutte le funzioni del sistema intelligente tramite l'app eBike Flow.

The smart system points the way to the digital future for eBikes. The eBike Flow app, the battery, the display, the control unit, the drive unit and the Bosch eBike ABS are fully networked in the smart system. Regular over-the-air updates keep them up to date and add new features. You can control all functions of the smart system via the eBike Flow app.

+ Smart System + App + Performance + Over the air updates + User Experience + New Riding Modes

The smart system

Bosch App EBIKE FLOW

Over the Air updates

Scarica nuove funzioni e aggiornamenti per componenti come la batteria o il motore per il 5 sistema intelligente con l'app eBike Flow e inviali alla tua eBike tramite Bluetooth. In questo modo, la tua eBike rimane sempre aggiornata e tu hai più opportunità.

Download new functions and updates for components such as the battery or the drive unit with the eBike Flow app and transfer them to your eBike via Bluetooth. This way, it not only always stays up to date, but also continuously gains useful capabilities.

eBike Lock

Dopo l'installazione attraverso l'app eBike Flow, lo smartphone funge da chiave digitale per la disattivazione del supporto del motore alla pedalata.

After installing the eBike Flow app, the smartphone acts as your digital key for deactivating motor support.

Individual Riding modes

Adatta le modalità di marcia con precisione alle tue esigenze personali: le modalità di marcia Race, Cargo, Turbo Auto, Sport, Tour ed Eco possono essere impostate in modo graduale e con precisione, in modo da ottenere maggiore supporto o ridurre il consumo energetico.

Adjust selected riding modes precisely to your individual preferences: You can fine-tune the Race, Cargo, Turbo, Auto, Sport, Tour and Eco riding modes to give you more support or to use less power.

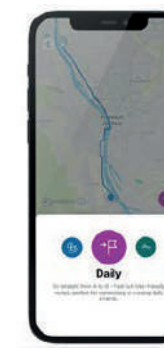

Nel sistema intelligente, l'app eBike ti connette alla tua eBike e connette a sua volta la tua eBike al mondo digitale. La tua eBike rimane aggiornata e viene migliorata di continuo con nuove funzioni tramite gli aggiornamenti. Questo rende la tua guida in eBike ancora più divertente.

The eBike Flow app connects you with the eBike and your eBike with the digital world. With over-the-air updates, you can always keep your components updated with the eBike Flow app and constantly expand the range of functions. This makes eBike riding even more fun.

Guided Navigation

Con l'app eBike Flow disponi di due opzioni di navigazione: utilizza lo smartphone sul manubrio o pianifica il tuo percorso nell'app eBike Flow. Seleziona il profilo percorso idoneo alla tua situazione di guida.

With the eBike Flow app, you have two options for navigation: Use your smartphone on the handlebar or your Kiox 300 and plan your route in the eBike flow app. Choose the route profile that fits your riding situation.

Drive Units

Performance Line è il sistema di trazione versatile di Bosch. Per fare sport nel verde, andare al lavoro o rilassarsi du rante il tempo libero, fornisce il giusto supporto sempre al momento giusto. Sono disponibili due versioni. La drive unit Performance Cruise, silenziosa e leggera garantisce il supporto fino a 25 km/h con una coppia massima di 75 Nm ed è apprezzata per la sensazione di pedalata naturale e sportiva.

The versatile and virtually silent Performance Line is now also part of the smart system. Take advantage of the features on offer, stay active and rediscover the world around you. Performance drive unit supports until 75Nm and guarantee powerful yet natual pedaling.

Le performance line è completamente connessa in rete nel sistema intelligente e rimane così aggiornata anche dopo l'acquisto.
The performance line is fully networked in the intelligent system and thus remains up to date even after purchase.

Il sofisticato concetto di marcia del performance Line permette una guida quasi silenziosa.
The sophisticated drive concept of the performance Line permits almost silent driving.

Nell'app eBike flow è possibile personalizzare la modalità di guida Eco, tour, sport e turbo.
In the eBike flow app, you can customize the riding modes Eco, tour, sport and turbo.

Il sensore di velocità è disponibile anche in versione wireless nel sistema intelligente, per conferire all'eBike un look più pulito.
The speed sensor is also available in a wireless version in the intelligent system, to give the eBike a cleaner look.

Impressionante carattere agonistico della Performance Line CX Race, ideale per le gare di eMTB più dure al mondo. La modalità Race è stata sviluppata appositamente per l'uso nelle gare di eMTB ed è disponibile esclusivamente per la Performance Line CX Race. Questa modalità ti porterà rapidamente alla massima velocità e ti supporta con tutta la sua potenza fino alla velocità massima. La drive unit pesa solamente 2,27 Kg, e con una coppia massima di 85 Newton metri, consente una rapida accelerazione da fermi e prestazioni elevate. La verniciatura limited edition, insieme alle alette di dissipazione del calore, ne conferiscono robustezza e un design racing.

The impressive racing form of the Performance Line CX Race makes light work of the world's toughest eMTB races. The drive unit excels on the steepest, most technically demanding uphill and downhill trails, as well as long stretches at high altitude. In conjunction with the exclusive Race mode, it enables a burst of power out of bends and the fastest possible acceleration and riding speed. The Performance Line CX Race is the perfect choice for professional eMTB and ambitious recreational athletes.

Questa nuova modalità di marcia è stata sviluppata appositamente per le gare eMTB ed eroga un supporto diretto ed energico, fino al 400% della potenza di pedalata.
This new riding mode was specially developed for eMTB racing and delivers direct and energetic support, up to 400% of pedaling power.

L'accelerazione estremamente rapida dopo curve strette e ostacoli fornisce il vantaggio competitivo decisivo.
Extremely fast acceleration after tight bends and obstacles provides the decisive competitive edge.

Questa drive unit leggera riduce il peso dell'intera eBike e garantisce una migliore maneggevolezza e le massime prestazioni sul trail.
This lightweight drive unit reduces the weight of the entire eBike and ensures better handling and maximum performance on the trail.

La performance line CX Race in grigio grafite convince per il suo look sportivo e sicuro di sé.
The CX Race performance line in graphite gray impresses with its confident, sporty look.

La Performance Line CX assicura un'esperienza eMTB unica: compatta, leggera e più potente, combina a materiali di alta qualità, una trazione estremamente potente e sensori di fascia alta. Con una coppia fino a 85 Nm, feature nei comandi del motore e una modalità eMTB evoluta, la Performance Line CX offre un'esperienza di marcia naturale, intuitiva, potente e un punto di riferimento assoluto nel suo campo.

Go with the flow with Performance Line CX. Experience intuitive handling and a unique riding sensation with a powerful and dynamic drive unit. It will follow you to the limit for even more riding enjoyment on technically challenging terrain. In the smart system, the drive unit is fully networked with the other components of your eBike. In the eBike Flow app, you can access digital features such as activity tracking and the eBike Lock, as well as keeping your eBike constantly up to date.

La nuova modalità Auto reagisce alla diminuzione della velocità, ad esempio a causa di salite e vento contrario improvviso, compensandola con il supporto adeguato.
The new Auto mode reacts to decreases in speed, for example due to hills and sudden headwinds, and compensates for this with the appropriate support.

La coppia massima di 85 Nm migliora sensibilmente il comportamento di marcia.
The maximum torque of 85 Nm significantly improves the handling.

Il supporto si adatta al tuo stile di guida ed è ideale per i tour di trekking sportivo.
The mount adapts to your riding style and is ideal for sporty trekking tours.

La performance line è completamente connessa in rete nel sistema intelligente e rimane aggiornata anche dopo l'acquisto.
The performance line is fully networked in the intelligent system and remains up to date even after purchase.

Con uno stile di guida sportivo e un'elevata frequenza di pedalata, la nuova Performance SX ti supporta con picchi di potenza del motore fino a 600 watt e una coppia massima di 55 Nm. Con un peso di circa 2 kg, la Performance Line SX è l'unità di trazione più leggera del mondo Bosch Smart System. Affronta le curve in modo dinamico con la tua eGravel: la Performance Line SX ne riduce il peso complessivo, garantisce maggiore agilità ed è ideale per gli amanti di uno stile di guida sportivo. Inoltre, questa drive unit compatta scompare elegantemente nella zona delle pedivelle dell'eBike, conferendole un design simile a quello di una bicicletta tradizionale.

With a sporty driving style and high pedaling frequency, the new Performance SX supports you with engine power peaks of up to 600 watts and a maximum torque of 55 Nm. Weighing approximately 2 kg, the Performance Line SX is the lightest drive unit of Smart System. Take on curves dynamically with your eGravel: the Performance Line SX reduces its overall weight, ensures greater agility and is ideal for lovers of a sporty driving style. Furthermore, this compact drive unit elegantly disappears into the crank area of the eBike, giving it a design similar to that of a conventional bicycle.

FINO A 600 WATT
Massima potenza in dimensioni compatte.
UP TO 600 WATTS
Maximum power in compact dimensions.

CIRCA 2 KG
La nostra unità di trazione più leggera, installata in modo discreto.
ABOUT 2 KG
Our lightest, unobtrusively installed drive unit.

MAX 55 NEWTON-METRI
pedalare velocemente con un supporto potente.
MAX 55 NEWTON-METERS
pedal fast with powerful support.

MODALITÀ SPRINT
Per la guida sportiva con eGravel bike e eUrban bike.
SPRINT MODE
For sports riding with eGravel bikes and eUrban bikes.

Riding Modes and New Auto & Hill Hold

Regolazione automatica del supporto in caso di calo di velocità a causa di salite o di vento contrario improvviso. La funzione Hill Hold impedisce che l'eBike arretri accidentalmente su un pendio ripido o su scale, completando così il supporto della camminata assistita intelligente. L'Hill Hold impedisce all'eBike di arretrare per circa dieci secondi, senza che serva azionare il freno.

Automatic adjustment of support in response to a drop in speed, due to climbs or sudden headwinds. The Hill Hold function prevents the eBike from accidentally falling on a steep slope or on stairs. The Hill Hold prevents the eBike from pulling back for about ten seconds, without needing to apply the brake.

New Sprint

Supporto dinamico che cresce all'aumentare dell'intensità della pedalata per sprint veloci e salite ripide.

Dynamic support that grows as pedaling intensity increases for fast sprints and steep climbs.

Race

Dinamica senza compromessi e massimo supporto dalla partenza fino alla meta per le corse eMTB più difficili.

Uncompromising dynamics and maximum support from start to finish for the toughest eMTB rides.

Cargo

Massimo supporto per le eCargo fino al 400% delle prestazioni del ciclista e un comportamento ottimale in partenza anche a pieno carico.

Maximum support for eCargos up to 400% of the rider's performance and optimal starting behavior even when fully loaded.

Turbo

Supporto continuo anche per i casi di risparmio energetico con pedalata naturale durante i tour sportivi.

Continuous support also for energy saving cases with natural pedaling during sports tours.

Auto

Regolazione automatica del supporto di calo di velocità nelle salite o di vento improvviso.

Automatic adjustment of the support for speed drops on slopes or sudden winds.

eMTB

Supporto dinamico per una sensazione di pedalata naturale durante le tue escursioni in mountain bike.

Dynamic support for a natural pedaling sensation during your mountain bike excursions.

Sport

Supporto potente per una pedalata universale sia per una pedalata sportiva che per il tratto casa lavoro.

Powerful support for universal pedaling for both a sporty ride and the home-to-work stretch.

Tour +

Supporto continuo anche per i casi di risparmio energetico con pedalata naturale durante i tour sportivi.

Continuous support also for energy saving cases with natural pedaling during sports tours.

Tour

Supporto uniforme per tour con elevato livello di autonomia.

Uniform support for tours with a high level of autonomy.

Eco

Supporto ridotto con massima efficienza per prestazioni più elevate.

Reduced support with maximum efficiency for higher performance.

Off

Nessun supporto, tutte le funzioni del display sono accessibili.

No support, all display functions are accessible.

Display and Controller

Kiox 300

Kiox 300 è il display per il sistema intelligente e il tuo compagno di fitness intelligente e resistente per i tour sportivi. Può essere azionato in modo intuitivo tramite il LED Remote, è compatto e offre un display a colori facile da leggere. Completamente connesso in rete nel sistema intelligente, riceve continuamente nuove funzioni attraverso l'app eBike Flow.

Kiox 300 is the ideal display for the smart system and an intelligent and robust companion for your sporty rides. It can be operated intuitively via the LED Remote or the Mini Remote, is compact and offers an easy-to-read splash-proof and dust-proof colour display. Fully connected in the smart system, it is continuously supplied with new functions through the eBike Flow app.

Dashboard

Trip Information

Cruising Speed

Intuvia 100

Con Intuvia 100 avrai a disposizione un display intuitivo e sempre pronto alla partenza. Grazie ai caratteri grandi, il display è particolarmente chiaro e, insieme all'indicatore della marcia consigliata, ti garantisce più sicurezza e comfort durante la guida.

Intuvia 100 gives you an intuitive display which you can start riding immediately. Thanks to the large font, the display is particularly clearly designed and, together with the shift recommendation, gives you more safety and comfort when riding.

Purion 200

Purion 200 è montato sul lato sinistro del manubrio, nelle immediate vicinanze del pollice. Grazie alla sua forma curva, questa combinazione di unità di comando e display si adatta perfettamente al manubrio. L'alta risoluzione, il sensore di luminosità e i simboli di facile comprensione assicurano una rapida lettura e una maggiore comprensione delle informazioni. Oltre alle funzioni di base, come l'accensione e lo spegnimento dell'eBike e dell'illuminazione, è possibile, attivare la camminata assistita intelligente. Cinque tasti, un display e numerose opzioni: Purion 200 è connesso al sistema intelligente e collega l'eBike all'app eBike Flow.

System Controller & Mini Remote

Il Mini Remote con il suo design minimal, posto sul manubrio, collegato al System Controller, posto nel top tube, tramite Bluetooth, è la soluzione più leggera e snella dello Smart System. Nonostante il design minimalista e i soli tre pulsanti, è possibile utilizzare l'intera gamma di funzioni. Grazie alle icone sui tasti, è possibile trovare rapidamente la funzione giusta.

LED Remote

Il LED Remote collega l'eBike all'app eBike Flow. Consente di accedere facilmente a tutti i dati di guida importanti ed è intuitivo; le mani restano sul manubrio in modo sicuro. Cambia le modalità di marcia, usa la camminata assistita e aziona il display o il Ride screen del tuo smartphone. Grazie al sistema intelligente, il LED Remote ti consente di effettuare in modo autonomo gli aggiornamenti per l'eBike.

Control unit with compact colour display and fully networked in the smart system: that's the Purion 200. The all-in-one solution ensures an uncluttered handlebar, is in close proximity to the thumb and offers a razor-sharp display of ride data as well as simple, ergonomic control of all eBike functions. Combine the Purion 200 with an additional display - for even greater convenience. Purion 200 supports the following languages: German and English. More languages will be added from 2024.

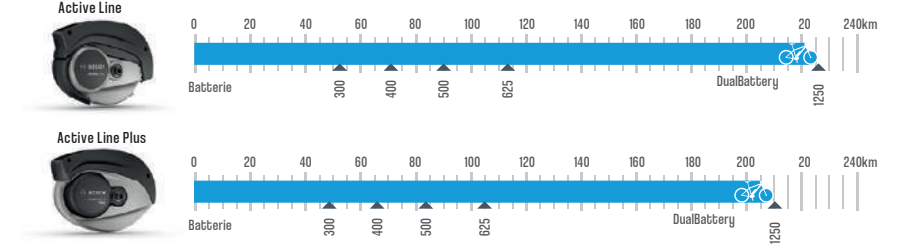

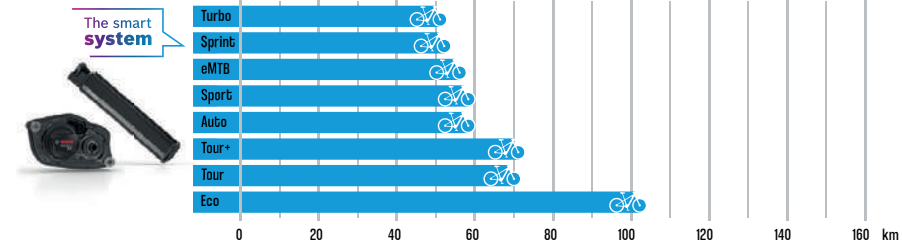

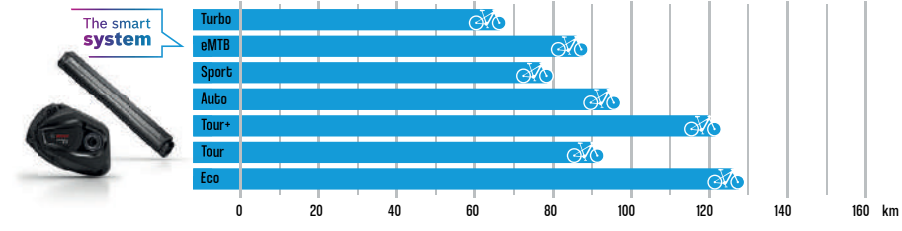

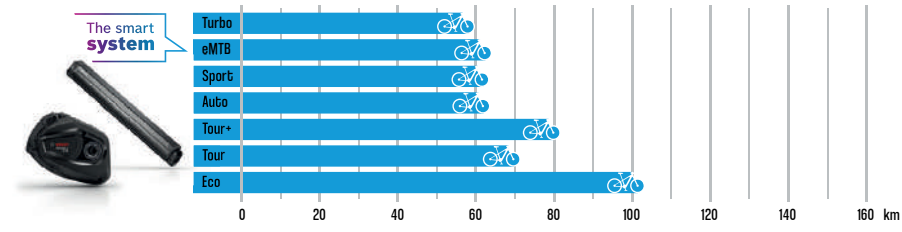

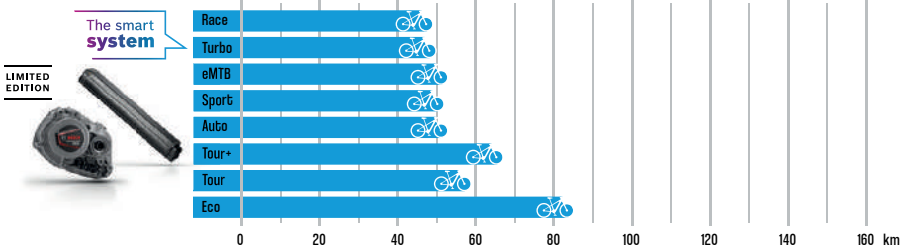

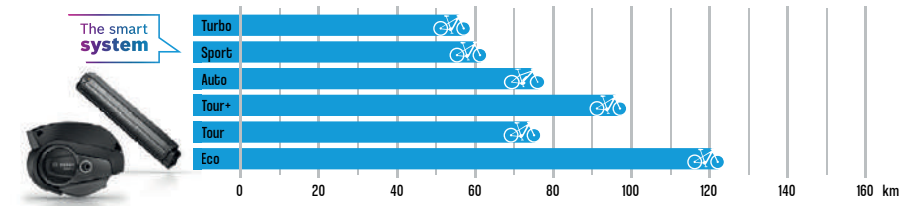

The Mini Remote & System controller with their minimal design is the lightest and easiest solution of the Smart System. The full range of functions can be used despite the minimalistic design and only three buttons. You can quickly find the right function thanks to the icons on the keys you can quickly find the right function.

The LED Remote connects your eBike with the eBike Flow app. It makes it easy to access all important ride data and is intuitive to use your hands remain safely on the handlebars. Change riding modes, use the smart walk assistance function and operate our display or the ride screen on your smartphone. Thanks to the smart system, the LED Remote allows you to perform updates for the eBike.

Battery by BOSCH

Le batterie Bosch forniscono energia in modo efficiente e continuo. Grazie alle loro eccezionali prestazioni, a una lunga durata e all'intelligente sistema di gestione della batteria, le batterie agli ioni di litio di Bosch sono tra le più moderne reperibili sul mercato. Il sistema di gestione delle batterie di alta qualità agli ioni di litio rileva le potenziali fonti di guasto e protegge le celle dal sovraccarico.

Bosch batteries are an efficient, long-life energy source. Thanks to their significant mileage, long service life and intelligent battery management system, Bosch lithiumion batteries are among the most modern on the market. Bosch eBike batteries combine low weight with ergonomic design and simple handling. The Battery Management System of the high-quality lithium ion batteries detects potential sources of error and protects cells from overloading.

EMPOWERED BY
FAZUA

Total Control

Il sistema di pedalata **Fazua Evation** supporta la nostra **Mugello** in modo compatto e leggero. Per ottenere il miglior supporto possibile, la frequenza di pedalata deve essere compresa tra 65 e 85 giri / minuto. Grazie ad un sistema di misurazione della coppia su entrambi i lati: maggiore è la forza che si esercita sulla pedivella, maggiore è il supporto che si ottiene. Superando i 25 km/h, l'ingranaggio interno disaccoppia il motore dalla trasmissione e si possono raggiungere velocità superiori, senza dover pedalare contro il motore.

The Fazua system supports the Mugello and the Pergusa in a compact and light way. In order to get the best possible support from the engine, your pedaling frequency should be between 65 and 85 crank revolutions / minute. The drive system has a two-sided torque measurement: the more power you bring to the crank, the more support you get back. With more than 25 km/h, the freewheel decouples the engine from the transmission and you can reach peak speeds on your own, without having to pedal against the engine.

Just a Click!

Con un solo clic si può estrarre l'unità motore dalla e-Mugello Road e sostituirla con l'apposita cover per il tubo obliquo: in questo modo è possibile utilizzare la bici come una normale bicicletta senza motore.

It's possible to pull out the drive unit from the e-Mugello road with one click and you can replace it with a cover: so it is possible to use the e-bike like a traditional bike.

Riding Modes

Breeze

Supporto morbido, di bassa intensità e costante fino a 100 watt di potenza erogata.

Gentle, constant and 100 watts strong tailwind even at low rider power.

River

Supporto progressivo e sportivo per un'esperienza di guida fluida fino a 210 watt di potenza erogata.

Progressive and very sporty mode, for a smooth riding experience! The strength of the support precisely follows your foot and your own power. Give a lot and get a lot from the motor (max. 210 watts).

Rocket

Supporto aggressivo (fino a 250watt di potenza erogata) per affrontare le pendenze più ripide con un ridotto sforzo muscolare.

Aggressive assistance that helps you to tackle the steepest sections even with moderate driver power (max. 250 watts).

Rider APP

L'App che si adatta alle esigenze dei bikers che potranno accedere all'intera gamma di dati generati dai sensori e dal sistema, nonché creare e personalizzare facilmente i propri cruscotti. Sulla base di questo concetto, l'app fornisce una trasparenza completa su tutte le informazioni rilevanti. Combinando questo con il tracciamento GPS ad alta precisione, i ciclisti hanno la capacità di analizzare accuratamente le proprie prestazioni di viaggio, tenere traccia dei propri progressi di allenamento e imparare di più sulle proprie biciclette.

Riders can now access the full range of sensor- and system-generated data, as well as easily build and customize their own dashboards. Based on this concept, the app provides complete transparency over all relevant information. By combining this with high-precision GPS tracking, riders have the ability to accurately analyze their own trip-performance, keep track of their training progress and learn more about their bikes.

L'APP include le seguenti funzionalità:

- Navigazione GPS, monitoraggio e informazioni di viaggio
- Potenza del motore, capacità residua della batteria, autonomia in chilometri, ecc.
- Tachimetro, cadenza, potenza, coppia, ecc.
- Panoramica tecnica e informazioni sulla carica della batteria
- Funzioni di supporto, incl. accesso diretto al servizio Fazua
- Possibilità di condividere le escursioni con gli amici
- Sintesi e analisi dei dati post-corsa

The APP includes the following features:

- GPS navigation, tracking and trip information
- Motor power, remaining battery capacity, distance to empty, etc.
- Speedometer, cadence, power, torque, etc.
- Technical overview and battery charge information
- Support functions, incl. direct access to Fazua Service
- Ability to share rides with friends
- Summaries and analysis of the data post-ride

FIDLOCK

Una **produzione limitatissima**, oculata, minuziosa, quasi un capriccio. Sono infatti **soltanto 20** gli esemplari realizzati, uno cadauno le 20 regioni d'Italia. Questo il nostro voler omaggiare il **belpaese**, teatro del **Giro d'Italia** e del **Giro-E**, l'unica VIP e-bike experience al mondo. MugelloR52 Giro '23 Limited Edition ha preso vita, colore e carattere in **Area52**, la divisione creativa e sperimentale di Lombardo Bikes.

A very **limited production**, careful, meticulous, almost a whim. In fact, there are **only 20** specimens made, one each from the 20 regions of Italy. This is our wish to pay homage to the **beautiful country**, theater of the **Giro d'Italia** and the **Giro-E**, the only VIP e-bike experience in the world. MugelloR52 Giro '23 Limited Edition has come to life, color and character in **Area52**, the creative and experimental division of Lombardo Bikes.

System: Fazua Evation Ride 50 Street - 250WH
Group Set: 2X11 Shimano Ultegra
Brakes: Shimano Ultegra R8020 Hydraulic Disc 160-160
Wheels: Vision Metron 55 SL DB Lincher

 OFFICIAL SUPPLIER 2023

Green
 FUN VILLAGE
 Continental
 OFFICIAL EXHIBITOR 2023

Il 2023 ci vede rilanciare la presenza al Giro E di Lombardo Bikes, **fornitore ufficiale** della versione elettrica del **Giro d'Italia**. Sono equipaggiati con battistrada Lombardo Bikes il team Title Sponsor Giro E, ovvero il team Enel X Way e il team promotore dell'evento, quello di RCS Sport, che annovera tra gli ospiti **personalità dello spettacolo**, autorità e gli atleti azzurri di ogni sport e disciplina.

L'Azienda è inoltre presente come **espositore ufficiale** con uno spazio presso ognuna delle tappe di partenza, all'interno del **Green Fun Village**. Lombardo Bikes applica in modo itinerante le proprie **Green Practices**! Ogni sforzo, per quanto piccolo, se sommato a migliaia e milioni di altri piccoli sforzi, può diventare un **aiuto concreto** al pianeta che ci ospita.

The 2023 sees us relaunching the presence of Lombardo Bikes at the **Giro E**, the **official supplier** of the electric version of the Giro d'Italia. The Title Sponsor Giro E team, the **Enel X Way** team, and the event promoter team, **RCS Sport**, are equipped with Lombardo Bikes.

The Company is also present as an **official exhibitor** with a space at each of the starting stages, inside the **Green Fun Village**. Lombardo Bikes applies its **Green Practices** on an itinerant basis! Every effort, however small, if added to thousands and millions of other small efforts, can become a **concrete help** to the planet that hosts us.

Cicli Lombardo SpA garantisce tutti i propri prodotti per 2 anni dalla data d'acquisto presso uno dei rivenditori Lombardo autorizzati. Se il cliente è un operatore commerciale (società di noleggio/sharing, servizi di trasporto, clienti con partita IVA ...) il periodo di garanzia è di 6 mesi.

È possibile estendere la garanzia di un ulteriore anno registrando il proprio prodotto sul sito www.lombardo-bikes.com entro i 15 giorni successivi alla data d'acquisto. Dall'estensione sono esclusi tutti i componenti elettronici sui quali vale la garanzia legale della casa produttrice. Il produttore è esonerato da ogni responsabilità ed obbligo per qualsiasi incidente a persone o cose che possa verificarsi per o durante l'uso del veicolo.

Cicli Lombardo SpA può rispondere della sostituzione e/o riparazione gratuita di componenti inutilizzabili o inefficienti (o dell'intero prodotto) previa richiesta presentata dal rivenditore presso cui è stata acquistata la bike e ove risulti oggettiva una non conformità imputabile a difettosità di materiale o di lavorazione. Se non fosse possibile rivolgersi al rivenditore originario, è possibile rivolgersi ad un altro dei rivenditori autorizzati di zona esibendo la prova d'acquisto. In questo caso il rivenditore ha la facoltà di chiedere un rimborso per i costi di trasporto e manodopera. In caso di necessario intervento di garanzia lontano dal territorio nazionale d'acquisto, ed in caso di impossibilità di risolvere il reclamo in loco, il cliente farà pervenire a proprie spese il ciclo presso il rivenditore autorizzato Lombardo dove il prodotto è stato acquistato. Ogni richiesta al rivenditore deve essere corredata dalla presentazione di scontrino fiscale pena l'impossibilità di reclamare la garanzia. L'esercizio e il riconoscimento della garanzia su un componente, o sull'intero prodotto, non ne rinnova il periodo di copertura: il termine di scadenza rimane quello residuale dalla data d'acquisto indicata sullo scontrino fiscale.

Per alcune categorie di componenti (a titolo d'esempio non esaustivo: forcelle ROCK SHOX, deragliatori SRAM ...), Cicli Lombardo SpA può riservarsi la facoltà di far riconoscere la garanzia reclamata presso gli appositi centri autorizzati dal produttore.

I seguenti particolari, essendo soggetti ad usura, non sono coperti da garanzia: pattini freno, cavi, guaine, lampadine, manopole, copertura sella, pedali, catene, ruote libere, decalcomanie, camere d'aria, valvole e coperture, corpetto cassetta ruota posteriore, cuscinetti e perni, parti in gomma soggette ad utilizzo continuo (es. tasto On/Off dei display, comandi dei remote dei display, ...). Fanno eccezione i fenomeni chiaramente imputabili a difetti di costruzione e/o materiale.

Comportano la decadenza del diritto di garanzia: l'acquisto di prodotti usati, la negoziazione e la permuta tra privati, l'acquisto di prodotti presso centri non autorizzati; il naturale deterioramento della capacità di assorbimento della batteria (nel caso di e-bike), l'utilizzo di componenti esterne (es. centraline, acceleratori per e-bikes ...); l'apporto di modifiche strutturali al prodotto e l'alterazione del funzionamento e dell'estetica del veicolo; le riparazioni, le sostituzioni o gli smontaggi fai da te non monitorati dal rivenditore o autorizzati da Cicli Lombardo SpA; l'impiego del prodotto fuori dalle normali condizioni d'uso; la negligenza dell'utilizzatore nella conservazione e manutenzione periodica del prodotto.

Il veicolo non risulta coperto da garanzia nei seguenti casi: danni derivati da sinistri o dovuti ad incuria; manutenzione conseguente ad usura, fatta eccezione per fenomeni chiaramente imputabili a difetti di materiale e/o lavorazione; tutti i casi di rumorosità, vibrazioni e deterioramenti che non influenzano la funzionalità e la guidabilità del prodotto

Cicli Lombardo SpA offers a 2 years (24 months) warranty for all its products since the date of delivery to the end customer (date of receipt) at one of the Lombardo authorized retailers. If the end customer is a commercial user (rental/sharing companies, courier services, VAT user ...) the warranty period is 6 months. It's possible to extend the warranty period of another year by signing up the product on the website www.lombardobikes.com within 15 days after the date of purchasing.

The manufacturer is exonerated from any responsibility or obligation in case of accidents to persons or damages to objects that may occur during the use of the vehicle.

Cicli Lombardo SpA can replace and/or repair for free, the unusable and inefficient components (or the entire product), upon a written request of the dealer where the bike has been purchased. If it is not possible to go to the original dealer, customer can ask to another authorized dealer in the same area by showing proof of purchase. In this case the dealer can request a refund for transport and labor costs. In case of recognized warranty assistance away from the national territory of purchasing, and in case of no possibility of resolving the complaint on site, the customer must pay the cost for sending the cycle to the authorized dealer where the product was purchased. Each request to the retailer must be accompanied by the presentation of the receipt or the warranty claim will be invalid.

The acceptance of the guarantee of a component, or on the entire product, doesn't renew the coverage period: the deadline remains unchanged from the date of purchase indicated on the receipt.

Concerning some categories of components (no-exhaustive example: ROCK SHOX forks, SRAM derailleurs...), Cicli Lombardo SpA may reserve the right to recognize the claimed warranty in specialized centers by the manufacturer.

The following components are not covered by warranty because subjected to wear : brakes paddles, cables, cases, lights, grips, pedals, chains, freewheels, stickers, tires, tubes, valves, rubber parts of display (eg. On/Off button, remote controller buttons...), bushing, bearings and screws, bodyhub cassette of rear wheel. An exception to this could be all those cases that are clearly attributable to manufacturing and/or material defects.

The warranty will be void under the following cases: the purchase of used products, negotiation and exchange between private parties, the purchase of products from unauthorized centers; the natural deterioration of the battery capacity (in case of e-bike), the use of external components (eg. control units , accelerators for e-bikes); structural changes and function and aesthetic modifications; fixing up, replacements or disassembling without the supervision of a Lombardo retailer or the authorization by Cicli Lombardo SpA.; the use of the product beyond normal conditions; user's carelessness in storing and ordinary maintenance of the product.

The vehicle is not covered by warranty in the following cases: damages resulting from accidents or negligence; maintenance because of wear, except those cases clearly due to manufacturing and/or assembling defects; all noisy, tremblings and deterioration cases that do not influence the product functionality and riding.
